

A Complete Automation Solution

When it comes to automation designed specifically for your needs, DSG are the only three letters you need to know. The experienced engineers and technicians in DSG's Industrial Automation Group can design and build automation solutions for customer-specific jobs, no matter how large or complicated. In fact, our experience with the following industries is virtually unsurpassed:

**Food Processing
Grain Handling
Manufacturing / OEM**

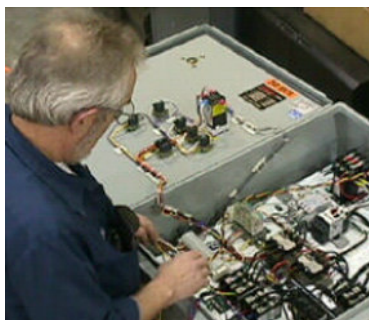

**Gas, Oil and Power
HVAC / Refrigeration
Water / Wastewater**

Better Information & Control Systems Help Your Bottom Line

DSG provides solutions that optimize production control and quality in your facility. After carefully evaluating your existing systems, we design and build advanced controls tailored to your timetable, budget and individual needs. Our products deliver information / control solutions for today's concerns, while maintaining flexibility for tomorrow's opportunities.

Your Local Electrical Distributor With A UL-Listed Control Shop

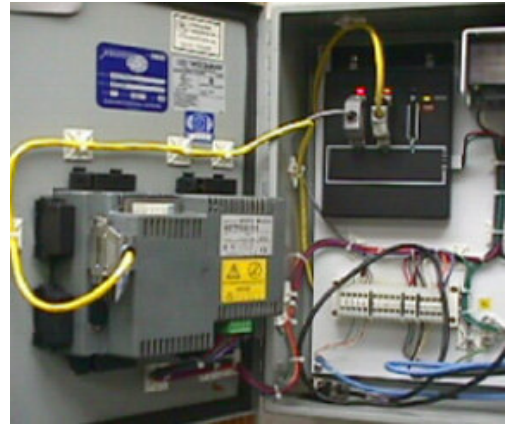

DSG is one of the Midwest's largest distributors of electrical parts. We also fabricate our own UL-approved custom control panels and employ our own automation control specialists. You can trust your controls to the same folks you've trusted all these years for your electrical supplies.

Contact us today to learn how the DSG Automation Group can make your job easier! Call your local DSG or visit us at www.dakotasupplygroup.com.
